GRAMINEX L.L.C. RECEIVES IFANCA HALAL CERTIFICATION

Saginaw, Michigan. October 1, 2012 – Graminex LLC, producer of Graminex™ Flower Pollen Extracts, receives Halal Certification for its G60™, G63™, GFX™, NAX™ and G60 WS™ Flower Pollen Extract formulations under the supervision of the Islamic Food and Nutrition Council of America (IFANCA).

Receiving IFANCA Certification guarantees Graminex meets the highest quality of Halal Certification available anywhere in the world. Halal Certification is another step toward meeting the exacting standards and lifestyles of Graminex's customers both in the US and abroad.

"With Graminex now being Halal-Certified, we can guarantee our products and their components comply with the strict guidelines under Islamic Dietary Law," stated Justin Ritter, Regulatory Affairs.

Cindy May, CEO, stated, "While not every Graminex customer subscribes to the same beliefs, because of Halal Certification, every customer can feel confident in Graminex's commitment to producing the highest quality botanical extracts." Halal approval confirms the purity and quality of Graminex™ Flower Pollen Extracts; attesting that products were produced in conformity with the preparation and ingredient standards of the Halal lifestyle.

About Graminex LLC

Graminex LLC is the leading producer of natural and solvent free pollen extract. Graminex manages more than 6,500 acres of farmland in Northwest Ohio to meet its customer's needs. On these fields active ingredients are grown for the dietary supplement, pharmaceutical, food and skin care industries. Graminex markets its own line of dietary supplements, focusing on prostate care, menopausal support, skin care and antioxidant, amino acid and phytosterol maintenance. Partnered with its distributors, Graminex products are sold in more than 44 countries on six continents.
