FOR IMMEDIATE RELEASE

GRAMINEX L.L.C. ANNOUNCES SUCCESSFUL RYE POLLEN HARVEST

SAGINAW, MICHIGAN. June 18, 2004 - Graminex L.L.C., the exclusive manufacturer and distributor of Graminex Flower Pollen Extracts is pleased to announce the successful harvest of its largest Rye Pollen Crop to date.

For its seventh consecutive year, the Graminex facility in Deshler, Ohio has completed a successful harvest of Rye Pollen. The Rye Pollen is used as a starting material, then processed by Graminex's proprietary technology and distributed as Graminex Flower Pollen Extract, which is used as an active ingredient for both pharmaceutical and nutraceutical preparations.

The Graminex L.L.C. staff harvested more than 1,200 acres of Rye and processed the material over a ten day period, during its first pollen harvest of 2004. The material was then tested and analyzed according to GMP standards for immediate release into the international markets. It is estimated that during this period Graminex collected its largest Rye Pollen Crop to date.

Graminex L.L.C., C.O.O. Edward P. Wyszumiala, stated that, "...this year's Rye Pollen harvest has yielded enough raw material to ensure that Graminex can meet our customer demands for immediate delivery now and in the future." Mr. Wyszumiala also stated that, "Graminex maintains its commitment to providing the highest quality and most natural pollen extracts to the nutraceutical industries throughout the world on a just in time delivery basis,

ensuring the shortest lead times possible for all of our products."

Graminex L.L.C. has established itself as a leader in the international dietary supplement industry. Located in Deshler, Ohio, the Graminex facility and warehouse manages more than 5,000 acres of farmland in Northwest Ohio on which, active ingredients for dietary supplements are grown, harvested, and processed. Graminex supplies bulk ingredients to the pharmaceutical and nutraceutical industries and markets its own line of dietary supplements, mainly focusing in the area of prostate care and immune system support. Partnered with its distributors, Graminex products are sold in more than 40 countries on six continents.

Graminex L.L.C., the exclusive manufacturer and distributor of Graminex Flower Pollen Extracts is GMP and ISO 9001 and Q9001-2000 certified under the standards for manufacturing and processing.
