## UK Food Standard Agency Approves Claims for Graminex Flower Pollen Extract™ For Exclusive Distribution by PharmaSav

**SAGINAW, MICHIGAN.** February 4, 2008 – Graminex LLC is pleased to announce that its product Graminex Flower Pollen Extract™ has been recently approved for health claims in the United Kingdom. After review, two health claim applications for maintenance of normal urinary function and prostate health were given approval.

Graminex is pleased to announce that PollenAid™ containing Graminex Flower Pollen Extract™ will be exclusively distributed by PharmaSav Ltd., initially under the NutraFX label by NutraFX Ltd.

Cynthia R. May, CEO of Graminex states: “Graminex is pleased that its products were accepted for two very important health claims by the UK authorities for distribution. Graminex is pleased to have PharmaSav as its exclusive partner, a leader in the supplement industry throughout the UK. We are confident that our partnership with PharmaSav will help to facilitate Graminex’s goal in supplying the international markets with flower pollen extracts of pharmaceutical quality. We look forward to serving the UK market through our exclusive distributor PharmaSav Ltd.”

Yvette Hastings, CEO of PharmaSav Ltd stated: “We are extremely pleased that the evidence submitted for the efficacy of Graminex Flower Pollen Extract™ has been accepted by the UK authorities. We are confident that this natural alternative will gain acceptance in the European marketplace. From a consumer perspective, not only is PollenAid™ both safe and effective, it is also organic and solvent free.”
