GRAMINEX™ ANNOUNCES NEW SOLVENT FREE MANUFACTURING PROCESSES FOR GRAMINEX™ FLOWER POLLEN EXTRACTS

SAGINAW, MICHIGAN. August 15, 2006 - Graminex™ is pleased to announce that all of its Flower Pollen Extract Products are manufactured without solvents. Graminex is currently the only manufacturer using non solvent manufacturing processes in the production of Flower Pollen Extracts.

By the discontinuation of all solvent manufacturing processes, Graminex has eliminated the need for residual solvent declarations on its Graminex™ Flower Pollen Products.

“Graminex feels that this manufacturing change reflects Graminex’s continued commitment to natural health products free from chemical processes and to the welfare of the environment for future generations”, stated Cynthia R. May, CEO.
